

THE BENEFITS OF RUBBER, THE FREEDOM TO USE **ANYWHERE**

Ramuc® synthetic rubber **A-2** is the go-to product for rubber aquatic coatings. VOC compliant in all 50 states and Canada, **A-2** can be applied on bare concrete or over surfaces previously coated with synthetic or chlorinated rubber. This self-priming coating provides a gloss finish with excellent hiding and protection benefits, making it a great way to restore or upgrade your aquatic installations, while offering a dependable service life of up to 4 years.

- ✓ COMPATIBLE OVER SYNTHETIC OR TRADITIONAL CHLORINATED RUBBER
- ✓ SUPERIOR COVERAGE RATE COMPARED TO OTHER RUBBER-BASED PAINTS
- ✓ VOC COMPLIANT EVERYWHERE IN THE USA & CANADA
